

# ARTISTS FOR HIRE AT THE LEARNING TECHNOLOGIES CENTER

Well, they aren't *really* for hire...

Our student artists are available to provide *free support* for your projects during their scheduled hours in the Learning Technologies Center.

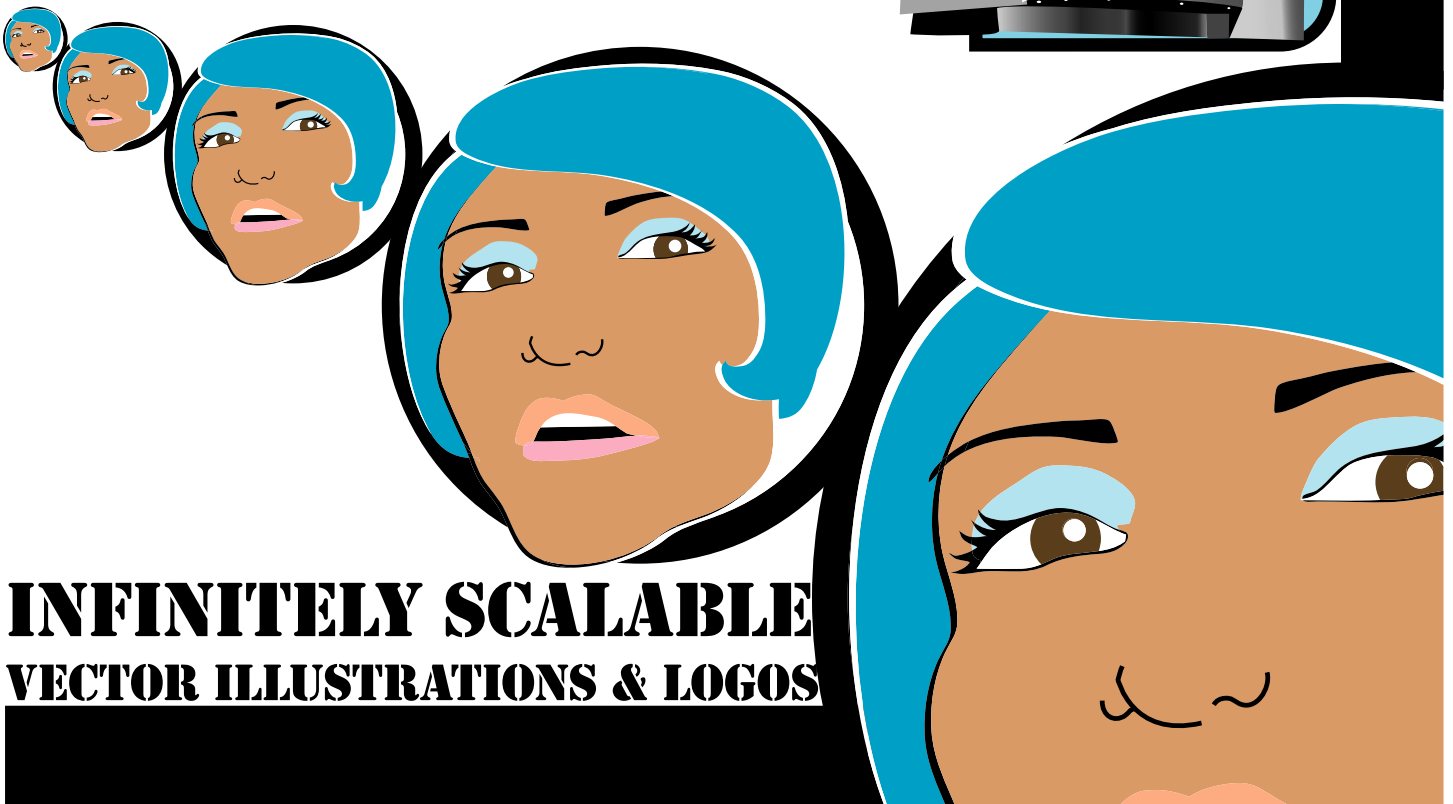

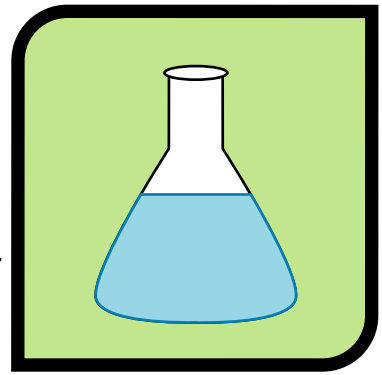

Our student workers are web designers, graphic artists, and illustrators. If you can't find clipart you need, or your imagery needs are unique to specific courses, our students can design a solution. We can develop original hand-drawn illustrations or vector artwork for your next project. Stop by the LTC or contact:

Will Jefferson

Learning Technologies Center Coordinator
