

**CAN ANYBODY
HELP ME?**

Yes!

KU's Learning Technologies Center is here to help!

If you feel a little uneasy with all the technology around you, you're not alone. The Learning Technologies Center team can assist you with a variety of technological and instructional initiatives.

We can show you how to use technology to enhance your students' learning experience. The LTC staff provides group training sessions and one-on-one instruction on a wide variety of office productivity and educational software. Let us show you how to make the technology work for you.

Do you have a thousand slides you'd like to use in PowerPoint or Blackboard? Need to convert paper documents into a web friendly format? We can do all that and more. Our talented student workers can help you create flyers, handouts and graphics for use in your projects and faculty web pages. Outsource your project to our student workers (*this is a limited time offer; act now before they escape!*).

Come visit us in Rohrbach Library RL22 or give us a call

HOURS: 8am - 5pm

CONTACTS: Will Jefferson, LTC Coordinator

610.683.4757 wjeffers@kutztown.edu

Jace Cavacini, LTC Technician
