

SPYWARE Worms TrojanHorses Phishing

WHAT'S ALL THE FUSS?

You've probably heard of computer viruses...

...but have you heard of **worms**, **spyware**, and **trojan horses**?

Come to the Learning Technology Center's "**Malware**" staff development session for the answers to all of your questions...

Learn how to identify, avoid and combat the malicious computer programs that are out to *have **your** data for a free lunch...*

...and what on Earth does "**phishing**" mean, anyway??
